

**Now at**  
**Microbiological Laboratory**  
 launches NEXT GENERATION Urinalyser

for Better Diagnosis

# Smart Urinalyser

Comprehensive **URINE ANALYSIS**  
 in one Single **STEP**

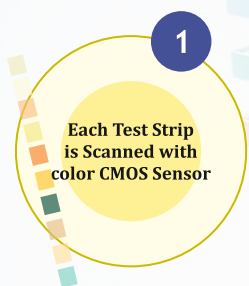

Flowcytometry and Digital Image based  
 on Sediment Analysis System

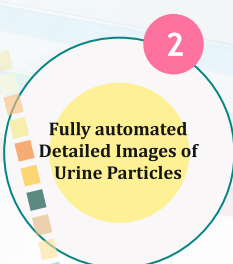

## CROWNING FEATURES

- Superior Differentiation of Particles
- Fluorescence Flow Cytometry - High Counting Reliability
- In-built Quality Control - Safe Interpretation
- Quantitative Bacterial Determination - Immediate answer for Bacterial Infection
- Protein Creatinine Ratio - Early Renal Damage

### Digital Images

### Less than a minute

Detect Highly

UTI & Bacteria  
 differentiation  
 in less than  
 a minute

Quantitative,  
 highly sensitive  
 and specific  
 bacterial count

Substantial Info

### Suspicion Confirmation

Detect Acute Renal  
 Failure by Renal  
 Tubule Epithelial  
 Cells and also  
 Urolithiasis  
 in a Single test
